

The 2017 Neode Prize: CHF 50'000 for the best project "Medical Devices"

Dear Madam, Dear Sir,

The **2017 Neode Prize** has been set up to award **CHF 50,000** to an innovative project in the field of medical technology. It is directed at inventors and visionaries, so the Technology Park is encouraging individuals, groups of individuals and institutions of all kinds to take part. All that's needed to enter the competition is the willingness to set up a company with its headquarters in the canton of Neuchâtel – and an innovative idea.

The aim of the Prize is to facilitate the marketing of the best ideas. In particular, the prize money will fund services to help industrialise the product, establish the business plan, and seek funds to bring it to market.

The jury is made up of experts from the field of medicine and representatives of the scientific, economic, financial and industrial sectors. It will be chaired by Professor Afksendiyos Kalangos, President of the World Society of Cardiothoracic Surgeons.

We would be most obliged if you could distribute the attached flyers.

For further information, visit www.neode.ch or prix2017@neode.ch

Thank you in advance for your cooperation.

Yours faithfully,

On behalf of the organizing committee,

Nicolas Wavre
Chairman of the jury
