

Medical Technologies

50'000 CHF in prize money

Neode, a reputed industry incubator in French-speaking Switzerland, will award 50'000 CHF in prize money to the best technological innovation in medical technology, by giving the winner subsidies allowing for the industrialization of the winner's product.

The Neode Prize committee is composed of internationally renowned specialists in the medical domain, who wish to support the idea or the patented medical equipment concept which shows the most promise.
